

(A) Ideal coronary artery

(a). Pressure inlet waveform (b). Coronary boundary model

(B) Subject specific AAA

(a). Flow-rate inlet waveform

(b,c). Windkessel RCR

(C) Subject specific coronary artery

LM stenosis
(DOS 68%)

Mid-LAD stenosis
(DOS 69%)

Distal-LAD stenosis
(DOS 70%)

(a). Heart boundary model

(b). Windkessel RCR

(c~l). Coronary boundary model
